Psychologists for the Promotion of Child Welfare (PPCW) Workgroup:
Role of the Staff Liaison
A staff liaison is a committee’s primary NJPA resource person. They serve as a source of knowledge about NJPA policies and procedures, able to draw on the skills of other staff members to provide effective assistance.

A point person to get a meeting date on the NJPA annual calendar, get committee information on the NJPA website, post a meeting listing on the NJPA Friday Update, get information about submitting journal articles.

NJPA is a member/volunteer driven association and is mindful that too active a staff liaison role reduces the value of the committee and impairs the motivation of volunteers. Therefore, in general, the staff liaison should not be used to do committee work or act as the committee’s private secretary.
