

**Stacie Danielle Shivers, PsyD**  
**2019 Member Recognition Award**

I'd like to express my appreciation for being selected as one of the recipients of the Jane Seltzer Member Recognition Award. I am honored to have been considered, and I am grateful for the invaluable experiences I have had as an NJPA member. Since joining NJPA as a student member in 2011, I've had the opportunity to meet and network with many graduate students, early career psychologists and seasoned professionals. I have also had the pleasure of building a myriad of professional and collaborative relationships, which I continue to appreciate. Because of NJPA and the many opportunities the organization offers, I have not only been able to expand my skillset as a psychologist, but also to enjoy learning ways to navigate new challenges and experiences. As co-chair of the Early Career Psychologist (ECP) Committee, it has been heartwarming to observe the support that NJPA has for its members, especially ECPs. I thank NJPA for its unwavering support of ECPs, and for recognizing the value of ECPs to the profession of psychology. Thank you again to NJPA for the ongoing support of NJ psychologists, and for this special recognition.
